

## Web Designing Course: Prof Fr Anil SVD

The Web Designing Course is just getting better and better over the years @ NISCORT. The short course on Web Designing was held from May 22- May 31, 2017. The teacher Prof Fr Anil SVD and the students were fully involved in making the best of the time allotted to them. Prof Anil with skills and expertise patiently taught the students the different aspects and codes of Web Designing. He reached out to them with his simple and generous mannerisms. He was there for each student far beyond the time allotted for the classes each day and the students were grateful to him. The course had an excellent feedback and the students requested more days for the same!
