

PHOTOGRAPHY COURSE 2017

While the course was restricted to 15 students, NISCORT was proud to see the surplus demand in the need to learn tips for photography in a week. The course thus saw 17 students equipped with DSLRs guided by Professor Andrew (Reporter with The Indian Express).

While, the students went through the tips and techniques, rules and guidelines, shutter and aperture mastering, they also had ample time for putting into practise the guidelines they learnt.

NISCORT is happy to present to you selected pictures from those who benefitted from this course.
